# Aung Pyae Phyo

Frontend Developer, Developer Relations and AI research enthusiast. Always influenced by design.

About

Specialized in web development. My passion lies in crafting innovative solutions that blend technology and design with a focus on social impact, aiming to make a meaningful difference in people's lives. I'm dedicated to utilizing the most recent and advanced front-end technologies to improve user accessibility and maximize web application performance. My goal is to provide a smooth and effective user experience.

Vitest,Jest,Cypress,Zod

Tools

Git,GitHub,GitLab,Zsh,Bash,Linux,Docker,Postman,Expo,Figma,Notion,Jwt,Turborepo,
Turbopack,Neon,RestfulAPIs

OS

Window,Linx

Ohter Skills

- Problem solving
- Knowledge of algorithms and data structures
- Strong analytical and reasoning skills
- Proficiency in troubleshooting software issues and debugging a large codebase
- Communication skills
- Able to work collaboratively
- Software programming languages

Project Experience

JK MOBILE

Open Source

JK Mobile exemplifies my ability to leverage a diverse stack of technologies to create a refined and feature-rich mobile application. This project serves as a showcase of my expertise in front-end development, state management, and backend integration, making it a valuable addition to any resume.

LEARNING WEBSITE(LIKE UDEMY)

Part-Time

In 2023, I led the development of a learning website at an education center, showcasing my dedication to innovative educational platforms. With ReactJS, I crafted a modern, responsive, and user-centric environment, contributing to the progress of online education.

PLAY GAME AND USERS'S MARKS DASHBOARD

Myanmar Media Linkage

Developed the Kawi Admin Dashboard at Myanmar Media Linkage Company Limited in 2023. The project, built with Tailwind CSS, ShadcnUI, Next.js, Zod, and NextAuth, significantly improved internal management processes.
